

The Honorable Cody Harris  
Texas House of Representatives

I am requesting your support for and favorable passage of HB2006, a bill that will restore equal and unrestricted access to original birth certificates for adult adoptees. This is a clean piece of legislation that has bipartisan support in both chambers.

Supporting this vital human rights issue to ensure adult adopted persons are no longer treated as second class citizens and are allowed the same access to their own accurate birth record as non-adopted adults is greatly appreciated.

Thank you,
